

it's easy being **green.**

“The Power Rinser” Pre-Rinse Spray Valve **1.28 GPM @ 60 PSI**

Vigorous spray pattern increases performance and water-saving efficiency over older models. Niagara “Power-Rinser” uses only 1.28 gallons per minute compared to standard 2 to 6 GPM valves.

- Certified by Food Services Technology Center (FSTC)
- Endorsed by the Green Restaurant Association
- Passed FSTC Cleanability Test using 16% less water than all other low flow valves tested*
- High performance and incredible hot water savings using 1.28 GPM @ 60 PSI
- Up to 80% water use reduction
- Savings up to \$1300 every year (see chart below)
- Anti-corrosive stainless steel nozzle
- Solid brass, triple chrome plated sprayer body
- Insulated handle ensures comfortable grip
- Interchangeable with ALL brands
- Any repairs are easy with standard gaskets
- Standard, protective, full surrounding dish guard bumper
- 5 year warranty

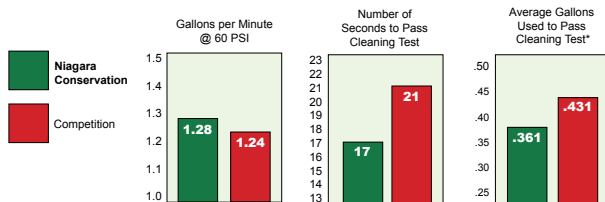

Item#: **N2180**
